Work Experience

Product Designer

Yandex Lavka • Full-time • January, 2019 – Present

At Lavka we deliver groceries within 15 minutes. Here, I'm responsible for all product design of maintenance products like Portable Data Terminal app and Warehouse Management System. With the release of Portable Data Terminal app the speed of order processing by warehouse employees was increased by 25%.

Product Designer

Yandex • Full-time • June, 2017 – January, 2019

Yandex is a Russian Google. For more than two years I was responsible for product design of most of the infrastructure services like storage, monitoring and data streaming systems; development tools, and others.

UX/UI Designer

Alfa Bank • Internship • July, 2016 – September, 2016

Designed the feature for money transfer between accounts and cards for the new app for individuals. Also, I took part in the development of an Alfa Bank Design System.

Web Designer

//ATNLabs • Internship • June, 2015 – August, 2015

Worked on web interface design for a B2B product. Besides that, I was responsible for creating graphic elements, icons, and promotional materials; developed design specifications.

Game Designer and Visual Artist

Secret Place Game Studio • Part-time • December, 2013 – May, 2014

Produced all game and visual design for mobile and desktop games, also marketing materials and presentations. With the team, we released the Finger Dodge game and won several local hackathons.
